EXPERIENCE

Front-End Developer
SEEQLO

May 2025 – Present
Remote, Canada

- Built and maintain a production AI-powered educational platform using React, Tailwind CSS, and Firebase
- Implemented responsive, structured content delivery UI serving live users at seeqlo.com
- Integrated Firebase backend services to support authentication and dynamic content

Web Developer Intern
The Vista

Jan. 2025 – May 2025
Islamabad, Pakistan

- Developed features for an HR SaaS product (Vista HRMS), focusing on API integration and responsive UI
- Collaborated with the engineering team to ship functionality in a production web application

PROJECTS

Seeqlo | *React, Tailwind CSS, Firebase*

seeqlo.com

- Full-stack educational platform with structured content delivery, responsive UI, and AI-driven functionality

ChatApp | *React, Firebase, Tailwind CSS*

pingzchatapp.netlify.app

- Built a real-time chat application with user authentication and a friend system
- Used Firebase for real-time data sync and backend logic

Personal Blog | *Next.js, Node.js, MongoDB, Tailwind CSS*

abdullah-khalid.vercel.app

- Developing a full-stack blogging platform with a Next.js front end and a Node.js/MongoDB back end
- Designed REST API endpoints for content creation, storage, and retrieval
